RESOLUTION NO. 2016-12

RICE CREEK WATERSHED DISTRICT BOARD OF MANAGERS

ORDER ACCEPTING PLANS AND SPECIFICATIONS; DIRECTING THE SOLICITATION OF BIDS AND ALLOWING COSTS FOR THE REPAIR OF ANOKA COUNTY DITCH 46

Manager [Signature] offered the following Resolution and moved its adoption, seconded by Manager [Signature].

WHEREAS, on January 13, 2016, the Rice Creek Watershed District Board of Managers ("Board"), Drainage Authority for Anoka County Ditch 46 ("ACD 46") adopted Resolution 2016-02 which was the Final Order directing the repair of ACD 46 and implementing water management district charges for the repair;

WHEREAS, Resolution 2016-02 directed the District's administrator to coordinate and take all subsequent actions necessary for implementation of the repair in a manner consistent and compliant with existing law;

WHEREAS, as directed by the administrator, the engineer has prepared and submitted plans and specifications for the repair;

WHEREAS, the Board's practice is to review and approve the plans and specifications prior to directing the solicitation of bids for any project;

WHEREAS, the Board has reviewed the plans and specifications as well as the Engineer's recommendation;

WHEREAS, based on the Board's review, the Board finds the plans and specifications for the project to be complete and to represent the intent of the Board's repair order;

WHEREAS, the Board has reviewed the costs incurred to date for the project and finds them to be reasonable and necessary in furtherance of the Board's repair order;

WHEREAS, in conjunction with the repair of ACD 46, the Board conducted a records correction process pursuant to statutes section 103E.101, subd. 4a, reestablishing and correcting the drainage system record of the alignment; cross-section; profile; hydraulic structure locations, materials, dimensions, and elevations; and right-of-way of the drainage system;

WHEREAS, by Resolution 2015-02, the Board described the right-of-way of the drainage system as follows:
a right-of-way easement for ACD 46 to include the area physically occupied by
the open ditch or tile drainage system, a one-rod (16 ½ foot) perennially
vegetated buffer strip adjacent to open ditch, and an area of reasonable set-back
to protect and provide for maintenance of the drainage system as required by
Minnesota Statutes Chapter 103E, together with rights of entry to parcels
containing the drainage system for inspection and maintenance purposes, as
well as any and all secondary easements recognized by law and necessary to
exercise statutory obligations related to the ditch.

WHEREAS, in its draft construction plans, dated May 25, 2016, the engineer further refined the
work area to be impacted by the drainage system repair;

WHEREAS, the Board provided mailed notice to the owners of all properties affected by the
proposed repair of a June 6, 2016, meeting to discuss the impact of repair activities on the
properties;

WHEREAS, the notice included an extract from the engineer’s draft construction plans
indicating the areas on each property to be impacted by the repair, the nature of the work to
be performed, and the limits of construction;

WHEREAS, on June 6, 2016, the Board held the meeting as noticed, provided information to
affected landowners regarding the repair, and solicited comments from those present
regarding ways to further limit the impact of repair on individual properties;

WHEREAS, based on the engineer’s prior analysis of the drainage system, historical review of
the drainage system records, the records correction process, and the comments of those
present at the June 6, 2016, meeting, the Board finds that the areas proposed to be impacted
by the repair of ACD 46 are within the limits of the area contemplated and included in the
original establishment of the drainage system for which damages were awarded and paid at the
time of establishment;

WHEREAS, based on the foregoing finding, the Board further finds that the repair may proceed
without appointment of viewers to determine additional damages related to the repair.

THEREFORE, the Rice Creek Watershed District Board of Managers makes the following:
ORDER

A. The Board of Managers accepts the plans and specifications for the repair of ACD 46, as revised and dated June 14, 2016, and directs the solicitation of bids according to the Engineer's recommendation for implementation of the repair and as required by law.

B. The Board of Managers directs its administrator to coordinate and take all subsequent actions necessary for implementation of the repair in a manner consistent and compliant with existing law. The Board reserves to itself, however, all subsequent actions required by law to proceed upon Board approval.

C. The Board of Managers authorizes modifications of the construction plans by the engineer to further limit impacts on individual properties based on comments from landowners following the June 6, 2016, meeting.

D. The Board of Managers further authorizes expenditures for the repair of ACD 46 and the collection of revenues consistent with this order.

The question was on the adoption of the Resolution and there were 4 yeas and 0 nays as follows:
